Designed for Maximum Rental Returns

About **Karze**

Karze is the trade name for our Electric Golf Buggy business, built on decades of international manufacturing and distribution experience.

Our company successfully managed the **manufacturing and distribution of adidas sportswear in Ireland for over four decades**, employing up to 450 people at its peak. This background ensures strong quality control, operational reliability, and long-term business stability.

Karze buggies are manufactured by **Excar**, a trusted producer and **sole distributor to Mission Hills Shenzhen**, the largest golf complex in the world.

Global **Validation**

Mission Hills Shenzhen is recognised by **Guinness World Records** as the world's largest golf facility, spanning **40 km²** with **12 championship golf courses**.

It has hosted major international tournaments, including the **Omega Mission Hills World Cup**, and is regularly visited by elite golfers, dignitaries, and world leaders.

Key **Advantages**

Highly Competitive Pricing

Exceptional value without compromising quality or safety.

Award-Winning Lithium Battery

- » Up to **750 recharge cycles**
- » Nearly **three rounds of golf per charge**
- » Maximises rental potential and operational uptime

Advanced Security

- » Built-in **immobilizer** prevents theft
- » Safety logic prevents braking and acceleration at the same time

All-Weather Protection

- » Fully waterproof transparent cover
- » Protects golfers in wet conditions and the buggy during outdoor storage

Road-Ready & Intelligent

- » Fully equipped for **public road use**
- » Software-controlled **three speed modes** for different environments
